

PSC Faculty and Staff Stand with Students

November 2016

We, the undersigned members of the Professional Staff Congress/CUNY, pledge that no matter what happens in the months and years to come, our classrooms, laboratories, libraries, studios and offices will remain spaces where the targeting of students based on their identities, beliefs, appearance, or immigration status will never, ever be tolerated.

Second, we pledge to stand up, both within CUNY and among a broader public, against all the forms of sexism and racism, of Islamophobia and anti-Semitism, of xenophobia and homophobia, of hatred and discrimination based on ability, class, sexual or gender identity—in short, against all the forms of hatred that have been unleashed over the course of this election campaign—that threaten to become part of our nation’s public policy.

Third, we pledge to model and teach critical thinking in all of our interactions with students, in order to empower CUNY students to analyze, interrogate, challenge and reshape public discourse, now and in the future.

As members of the CUNY community, we consider an attack on any of us to be an attack on all of us. The positions we voice here and the pledges we make are aligned with CUNY’s beautiful founding mission “to educate the children of the people, the children of the whole people.” We look forward to teaching you, supporting you, and learning from you, in the days and weeks and years to come.
