#BullyFreeCUNY

October is National Bullying Prevention Month. The PSC Anti-Bullying Committee is organizing virtual events from October through December.

https://www.psc-cuny.org/anti-bullying

Ladies and gentlemen, while we wait for the program to begin, a few important announcements from our hosts. Thank you for your attention.
Towards a Better Workplace

A lunchtime discussion on a #BullyFreeCUNY
Temperature Check

Referring to the figure on the right, how are you doing?
CUNY 3.0

**FRAMING:** CUNY is emerging from the coronavirus pandemic. Our world is a radically different place from what we are familiar with. What does the future of CUNY look like not just as an institution of higher learning, but as a place of employment, and as an engine of social and economic mobility out of poverty? We are confronted with and forced to acknowledge racial differences, discriminatory practices, systemic injustice, oppression, inequities, poverty, crisis of climate disruption, a public health crisis, and a budget crisis to name a few. CUNY is faced with new challenges during these turbulent times of trauma and crisis. CUNY must wrestle and grapple with these issues and must reassess processes and evaluate practices to formulate revised policies in order to amplify its mission, principles and core values.

**COMPONENTS:**
1. Raise awareness
2. Education
3. Possible solutions. How can we do that?
4. University-wide committee
5. Who does the investigation?
6. What is the process?
What role does bullying play in this?

How does it fit into this new goal of a new CUNY?

How does it fit into The New Deal For CUNY?

How does it fit into the EC’s strategic action plan?

#BullyFreeCUNY: What is our shared vision in a new CUNY and how can we turn vision into reality?
Thank You!
